# MAJOR INDUSTRIES OF INDIA

### Class 8 Geography | Sample notes

## 1. COTTON TEXTILE INDUSTRY – Agro-based industry

- Raw material: **raw cotton**.
- Main centres: **Mumbai**, **Ahmedabad** and **Coimbatore**.
- It grew in Mumbai because of the **humid climate**, a port for importing machinery and a large supply of workers.
- Products: **cloth**, yarn and garments.
- Ahmedabad is called the **Manchester of India**.

## 2. IRON AND STEEL INDUSTRY – Mineral-based industry

- Raw materials: **iron ore**, coking coal and limestone.
- The Tata Iron and Steel Company was set up at **Jamshedpur** in 1907.
- Plants are near the **Chota Nagpur Plateau** because iron ore and coal are found there.
- Other centres: **Bhilai**, **Rourkela** and **Bokaro**.
- Products: **steel** for machines, rails and bridges.

## 3. SUGAR INDUSTRY – Agro-based industry

- Raw material: **sugarcane**.
- Mills are near the fields because sugarcane dries quickly and must be crushed soon after cutting.
- Main states: **Uttar Pradesh** and **Maharashtra**.
- Products: **sugar**, with molasses as a by-product.

## QUICK COMPARISON

- Cotton Textile Industry = cotton to cloth (Mumbai, Ahmedabad)
- Iron and Steel Industry = ore and coal to steel (Jamshedpur)
- Sugar Industry = cane to sugar (near the fields)

## COMPARATIVE TABLE

| Feature | Cotton Textile Industry | Iron and Steel Industry | Sugar Industry |
|---|---|---|---|
| **Type** | Agro-based | Mineral-based | Agro-based |
| **Main raw material** | Raw cotton | Iron ore, coking coal, limestone | Sugarcane |
| **Product** | Cloth | Steel | Sugar |
