Sample 07 — Multilingual Text

LANGUAGE AND GLYPH FALLBACK TEST

English: Plants need sunlight, water, air, and nutrients to grow.

[illegible]: [illegible], [illegible], [illegible] [illegible] [illegible] [illegible].

[illegible]: [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible], [illegible], [illegible] [illegible] [illegible] [illegible] [illegible] [illegible]

Numbers: [illegible] • 1234567890

Punctuation: “quoted text” — em dash; apostrophe’s; brackets ( ); question?

Important test note

This file intentionally includes Devanagari. The PDF uses the built-in Helvetica font, which may not contain Devanagari glyphs. Use this sample to check whether the import pipeline preserves text, identifies unsupported glyphs, or displays replacement boxes.

Expected result: English should render normally; the app should handle unsupported scripts gracefully instead of silently dropping text.
