RESOURCES AND THEIR CONSERVATION

Class 8 Geography | Sample notes

1. TYPES OF RESOURCES

- Renewable resources: **solar energy**, **wind energy** and **water**.
- Non-renewable resources: **coal**, **petroleum** and **natural gas**.
- Renewable resources can be **used again and again**.
- Non-renewable resources will **run out** one day.

2. CONSERVATION OF RESOURCES

- We should **reduce**, **reuse** and **recycle**.
- Switching off lights when not needed saves **electricity**.
- Planting trees helps to stop **soil erosion**.
